

Collect every moment of your life...

Pebbles, la nuova collezione di Fontana'S per il 2011, nasce dall'unione della creatività di Simona Maria Fontana Burani con il design di Serena Maria Savi e l'arte orafa di Romano Braga.

Forme morbide, piene e avvolgenti accostate in modo apparentemente casuale, come i ciottoli di fiume ("pebbles", appunto), ci trasmettono sensazioni di libertà e naturalità.

I bagliori lunari dell'argento 925 si fondono con la preziosità dell'oro rosè 750, il calore del cioccolato la grinta del brunito e la luce pura dei diamanti.

Il risultato è un gioiello esclusivo, giovane e di classe al tempo stesso, in cui nessun esemplare è mai completamente uguale ad un altro: la magia del fatto a mano, in Italia.

Pebbles, the new Fontana'S collection for the 2011, was born from the combination of Simona Maria Fontana Burani's creativity with Serena Maria Savi's design and Romano Braga's goldsmith art.

Soft, rich and wrapping shapes joined together in an apparent casual way like river's pebbles do, give us sensations of freedom and nature.

Sterling silver's moonlight blends with the preciousness of the 18 kt rose gold, the warmth of chocolate, the character of dark grey and the diamond's pure light.

The result is a jewel at the same time young and refined, in which none of the pieces is ever completely like another one: the magic of handmade, in Italy.

925
